

PROTECTS
YOUR VAN
WITH A DENSE
CLOAKING
SMOKE

webeyeFOG & AJAX

Prevent theft from vans
and mobile environments

Security fog system from Webeye

- webeyeFOG has a smoke cartridge that covers 150m3
- Easily connected
- Low maintenance, low energy, low cost
- Non-toxic and leaves no residue
- Trigger upon intrusion

Compact, economical, powerful.

When an alarm goes off, thieves know they have some time before anybody intervenes. webeyeFOG makes it impossible for them to use that time.

webeyeFOG is a highly efficient fogging system that releases a dense and bitter smoke which impairs vision inside the protected environment. It is a truly effective way to prevent theft because it is physically impossible to linger in the protected area.
